Sandy Cove Advisors - An Invested Hingham Neighbor

As a boutique financial advisory firm, Hingham’s Sandy Cove Advisors’ team members help their clients simplify life in a complex world. They use their skills to tailor a plan for each individual person and family. They partner with their clients as a sounding board, confidant, advisor and friend. The firm takes the same deeply personal approach to community involvement and charitable giving.

Sandy Cove Advisors Founder and President Deirdre Prescott of Cohasset leads by example. As a Hospice family member, she saw first-hand the difference that Hospice care can make for patients and their loved ones. She witnessed how Hospice nurses used their skills to support patients’ individual wishes. Deirdre and her Sandy Cove colleagues have committed to helping keep Hingham’s Pat Roche Hospice Home an available resource for generations. The Sandy Cove team has consistently supported the Pat Roche Hospice Home’s residents and families with charitable donations, event sponsorships and even introduced their associates and friends to our mission.

Deirdre Prescott also personally commits countless hours of volunteer service as a member of the Board of Directors at NVNA and Hospice. She brings her passion, financial acumen and problem-solving skill to the table to make sure that her neighbors in 27 South Shore communities, from Milton to Plymouth have access to home care, wellness and public health services.

We are grateful to Deirdre Prescott and the entire Sandy Cove Advisors team. Thank you!
